# AV ESSENTIALS

When it comes to crafting an unforgettable Jose Ucar experience for event organisers and the audience, here are some key considerations to make things shine:

- 1 Killer Sound System:** Exceptional audio ensures that every word Jose delivers hits the mark, making his message truly resonate.
- 2 Energising Intro Music:** To captivate the audience and set an energetic tone as Jose takes the stage, here you have two of his favourite songs to choose from:
  - "Venezuelan in New York" by King Chango: Play from 1:05 to 1:27
  - "Quimbara" by Johnny Pacheco and Celia Cruz: Play from 1:29 to 1:55
- 3 Mic Magic:** Jose likes to chat with the crowd. With both wireless and handheld mics, Jose's audience interaction is seamless, creating a strong connection.
- 4 Big Screen Vibes:** Depending on the venue, a large visual display ensures everyone gets a clear view of slides and videos.
- 5 Light It Up:** Adjustable stage lighting sets the mood and adds a dynamic vibe to the presentation.
- 6 Tech Talk:** Ensure smooth tech connectivity for Jose's gadgets, including his laptop, clicker, and other tools.
- 7 Need for Speed:** High-speed internet keeps virtual elements running smoothly.

- 
- 8 **Confidence Monitor:** A confidence monitor helps Jose to stay in the groove.
  - 9 **Not an AV requirement:** To add a personal touch that reflects Jose's personality, consider having Colombian coffee available for attendees. Just like his wife's coffee, it can create a warm and welcoming environment for all.
  - 10 **H2O Power:** Please provide Jose with a trusty bottle of water for hydration during his talks.

While these AV considerations are important, remember that Jose Ucar's real magic happens when he connects with the audience. With these elements in place, that connection becomes even more powerful, leaving everyone with an unforgettable experience.
